**TRAFFIC
TECHNOLOGIES
LTD IS AUSTRALIA'S
PREMIER TRAFFIC
COMPANY IN
PROVIDING
INNOVATIVE AND
COST EFFECTIVE
SOLUTIONS TO THE
TRAFFIC INDUSTRY.**

TRAFFIC TECHNOLOGIES LTD IS AUSTRALIA'S PREMIER TRAFFIC COMPANY IN PROVIDING INNOVATIVE AND COST EFFECTIVE SOLUTIONS TO THE TRAFFIC INDUSTRY. ESTABLISHED IN 2004 AND LISTED ON THE AUSTRALIAN STOCK EXCHANGE IN 2005 (ASX STOCK CODE: TTI), TRAFFIC TECHNOLOGIES HAS GAINED A STRONG REPUTATION IN A DEMANDING INDUSTRY THROUGH ITS TECHNICAL PRODUCTS, SIGNAGE DIVISION AND TRAFFIC CONTROLLER OPERATIONS.

The Technical Products Division operates through the subsidiary company, Aldridge Traffic Systems (ATS), which specialises in the design, manufacture and installation of traffic signals, portable roadside technology, variable message signs (VMS) emergency telephones and road lighting. With a state of the art manufacturing facility and a "NATA" laboratory, ATS is able to deliver effective, timely and intelligent solutions to local and international customers.

The Signage Division operates through the subsidiary company, De Neefe, which manufactures and supplies a complete range of directional and regulatory traffic signs and traffic control products to road traffic authorities, municipal councils and the construction industry. With manufacturing plants across the country, customers are assured of service and quality within dedicated time frames.

The Controller Division Quick Turn Circuits (QTC) was established in 1995 and has a history in developing, manufacturing and maintaining traffic and transport related systems for almost 20 years. QTC is one of the leading manufacturers of traffic controllers in Australia, based on the Sydney Coordinated Adaptive Traffic System (known as SCATS) which is used and operated in 27 countries and controls some 37,000 intersections worldwide. With a proven track record, QTC is able to deliver leading edge integrated turnkey solutions for local and international markets.

Our company's head office is located in Eltham, Victoria, Australia and has offices located in Sydney, Brisbane, Darwin, Canberra, Adelaide, Perth, Hobart and internationally in the United Kingdom (UK) along with a distribution network in Brunei, Chile, China, Colombia, Denmark, Ecuador, England, Fiji, Greece, Hong Kong, India, Ireland, Malaysia, Mexico, New Zealand, Pakistan, Philippines, Qatar, Russia, Saudi Arabia, Singapore and South Africa. Through this network our customers can be assured they will receive exceptional service and quality thanks to our highly trained and experienced staff and state of the art manufacturing facilities.

Aldridge Traffic Systems

aldridgetraffic.com.au

ALDRIDGE TRAFFIC SYSTEMS PTY LTD (ATS), A SUBSIDIARY COMPANY OF TRAFFIC TECHNOLOGIES LTD, HAS OVER 40 YEARS EXPERIENCE IN THE DESIGN, MANUFACTURE AND INSTALLATION OF TRAFFIC SIGNALS, EMERGENCY TELEPHONES, PORTABLE ROADSIDE TECHNOLOGY AND ROAD LIGHTING PRODUCTS, WITH A STATE OF ART MANUFACTURING CENTRE SITUATED AT RHODES, NSW, AUSTRALIA AND HEAD OFFICE AT ELTHAM, VICTORIA, AUSTRALIA.

Our substantial resources and efforts are committed to designing, manufacturing and supplying products and services to the traffic signalling industry.

Our distribution network includes offices throughout Australia and the United Kingdom. We also have agents and distributors in Ireland, Denmark, France, Spain, Singapore, Malaysia, Thailand, Sri Lanka, India, New Zealand, South America and UAE.

Aldridge Traffic Systems Pty Ltd is quality endorsed to ISO9001:2008 and is WHS Certified to AS4801 in Occupational Health Safety. Our quality management system covers all the requirements of this standard and embodies our core processes of customer service, product development, manufacture and delivery, while a dedicated Quality department ensures the management, monitoring and improvement of the system.

We have a comprehensive Occupational Health and Safety Program to safeguard the health and well being of our employees.

Aldridge Traffic Systems Pty Ltd is represented on Australian Standard Committees, as well as other industry associations, and has received numerous awards in recognition of its contribution to the economic growth of New South Wales.

Our experienced team of managers and engineers have exceptional knowledge of the traffic signal industry, and our ongoing research program ensures that our products incorporate the latest technology, enabling us to meet and exceed the expectations of our customers.

DeNeeffe

deneefe.com

ESTABLISHED IN 1926, DE NEEFE, A SUBSIDIARY COMPANY OF TRAFFIC TECHNOLOGIES LTD, IS ONE OF AUSTRALIA'S LARGEST MANUFACTURERS OF FIXED METAL DIRECTIONAL AND INSTRUCTIONAL TRAFFIC SIGNS. DE NEEFE HAS OPERATIONS IN EVERY STATE OF AUSTRALIA, WITH THE MAIN PRODUCTION FACILITY LOCATED IN MELBOURNE AND NORSIGN, A DIVISION OF DE NEEFE, LOCATED IN THE NORTHERN TERRITORY AND SUNNY SIGNS LOCATED IN PERTH.

De Neeffe manufactures a wide range of traffic control products, vests, brackets, cones and bollards, as well as corporate signage for both Government and private sectors. We also provide sign installation and computer assessment of Local Government Signage.

We are a proudly Australian owned company and promote Australian manufactured products. De Neeffe uses the latest technology and systems to support our continued growth and success.

Our computerised Graphics Department has state of the art work stations, an image setter for screen printing positives and computer and flatbed cutters which increase workflow to other areas of the company. Our administration has the latest world class computer systems, which service the processing of orders, invoicing, estimating and production planning. De Neeffe is quality endorsed to ISO9001:2008.

Our mission is to provide our customers with exceptional customer service and a product which meets their requirements and expectations, at a price acceptable to all parties.

As the Signage Division of Traffic Technologies, De Neeffe works in conjunction with the other divisions of Traffic Technologies, to provide a 'one-stop-shop' for all our customers' traffic requirements.

qtcts.com.au

ESTABLISHED IN 1995 AND HEADQUARTERED IN SYDNEY, QUICK TURN CIRCUITS PTY LTD (QTC) HAS A HISTORY IN DEVELOPING, MANUFACTURING AND MAINTAINING TRAFFIC AND TRANSPORT RELATED SYSTEMS FOR ALMOST 20 YEARS. QTC IS ONE OF THE LEADING MANUFACTURERS OF TRAFFIC CONTROLLERS IN AUSTRALIA BASED ON THE SYDNEY COORDINATED ADAPTIVE TRAFFIC SYSTEM (KNOWN AS SCATS) WHICH IS USED AND OPERATED IN 27 COUNTRIES AND CONTROLS SOME 37,000 INTERSECTIONS WORLDWIDE.

As a leader in the design and delivery of innovative and cost effective solutions for engineering and commissioning of transport and traffic systems, QTC ensures that product and systems development are certified to a ISO9001:2008 standard enabling QTC to be competitive and world class in function and performance and therefore providing reliable operation in all possible environments to a global market. This includes the successful supply of product and systems to countries such as Australia, Colombia, Ecuador, Ireland, Qatar, China, Brunei, Malaysia, Singapore, Hong Kong, Samoa, New Zealand and Pakistan.

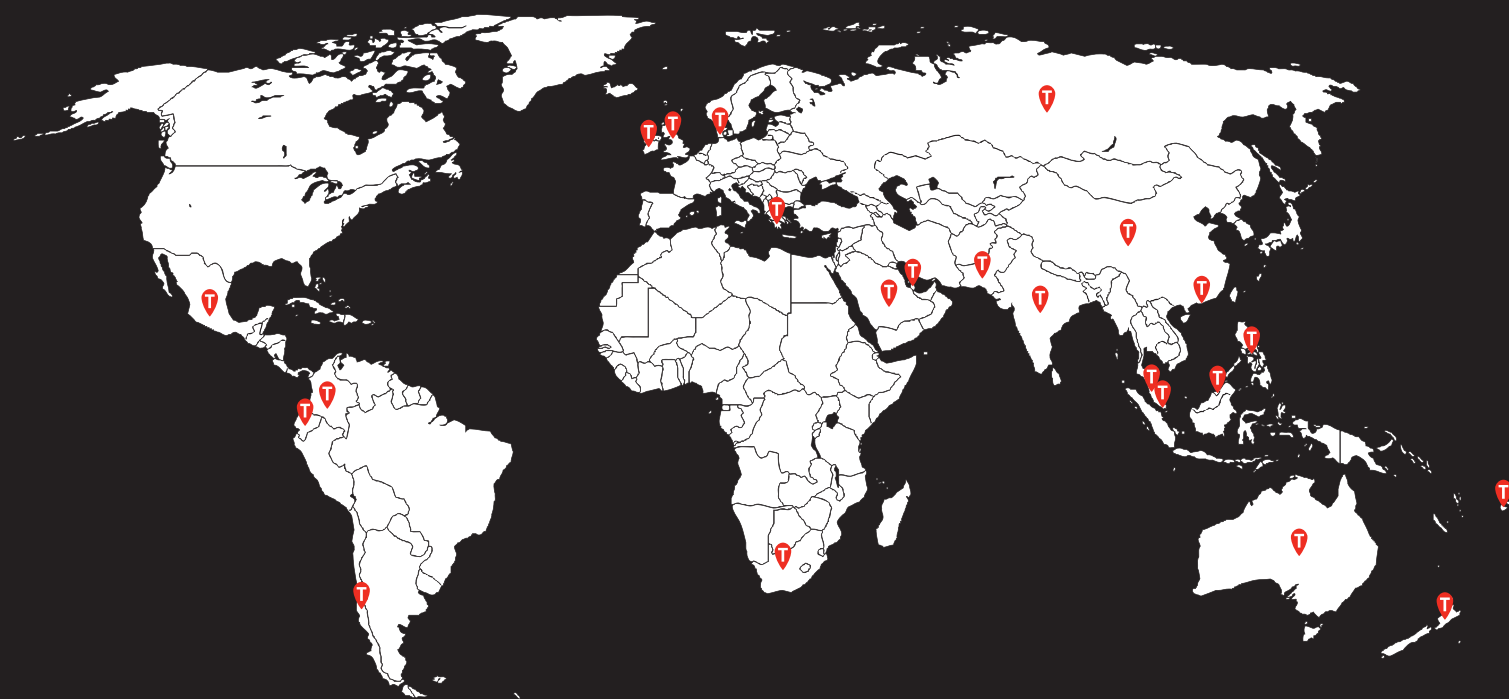

A traffic controller is an automated device that regulates the sequencing and timing of traffic signals by monitoring vehicular and pedestrian demands and adjusting to meet these requirements.

The controller has the ability to allow co-ordination of traffic flows between adjacent intersections when connected to a co-ordinated adaptive traffic system and, as designers and system integration specialists, QTC has proven experience, technical expertise a global resource base and business relationships allowing it to provide leading edge integrated turnkey solutions for local and international markets.

QTC has been a subsidiary of Traffic Technologies Ltd since 2013 and is based at Traffic Technologies manufacturing facility at Rhodes, NSW.
