Lighting the Roads and Highways Worldwide

Aldridge Roadway Lighting Solutions

LED street lights improve energy efficiency and energy afford-ability for local government, improve road safety and support the Government's smart cities agenda.

Aldridge design and supply state of the art vehicle and pedestrian LED lighting for major arterial roads, tunnels, underpasses, major intersections, low-traffic urban roads, public space and car parks. Aldridge has the technology and experience required to obtain the best illumination results for safe night time motoring - in all road conditions. Together with energy cost savings which far exceed expectations, Aldridge provide a total lighting solution for the safety of motorists and pedestrians.

Aldridge have been involved with prominent roadway and pedestrian lighting projects in Australia and worldwide. Aldridge products and LED lighting systems use the latest technology, which can be customised to provide the most effective and efficient lighting schemes which comply with the requirements of Australian Standard AS/NZS1158 for both vehicle and pedestrian (V and P Categories). Our design service utilises cutting edge technology along with NATA photometric data in order to provide the best solutions to meet the most stringent industry requirements.

Our experienced delivery team design, audit, deliver, install and maintain in all facets of this exciting industry.

This comprehensive brochure will make it easy to identify your product options and to match Aldridge luminaires and lamp technology to your specific project.
