SAFETY SIGNAGE

AUSTRALIAN MADE TO AUSTRALIAN STANDARDS

“Our mission is to provide safety to all road users. To supply energy efficient, intelligent and smart solutions to enable informed decisions. To focus on the needs of our clients and stakeholders”

Contents

- **REAR VEHICLE MARKER PLATES**
 - D.N.O.T.V. PLATE
 - REAR STRIP PLATES AND DECAL SETS
- **OVERSIZE AND LONG VEHICLE**
 - OVERSIZE
 - DO NOT OVERTAKE TURNING VEHICLE
 - LONG VEHICLE
 - ROAD TRAIN
- **HAZARDOUS GOODS**
 - HAZCHEM SIGNS
 - FLIP OVER KIT
 - CLASS LABEL HOLDERS
 - EFLARE
 - SAFETY BATON
 - COLLAPSIBLE CONES
 - HAZARDOUS GOODS SIGNS
- **SAFETY, FIRE SAFETY SIGNS AND CONSPICUITY FLEET TAPES**
 - R4 SERIES
 - VESTS
 - OVERSIZE FLAGS
 - FIRE EXTINGUISHER
 - BREAKDOWN TRIANGLE
 - FIRST AID KITS
 - FLASHING WARNING LIGHT
 - GIVE WAY TO BUSES
 - DRIVER UNDER INSTRUCTION
 - FIRE SAFETY SIGNS
 - FLEET TAPES

REAR VEHICLE MARKER PLATES

**ROAD TANK VEHICLE WITH
CATEGORY 33 PLATES**

**SEMITRAILER/FLAT DECK VEHICLE
WITH CATEGORY 33 AND 31L PLATES**

**OMNIBUS WITH
CATEGORY 34A AND 33 PLATES**

**RIGID TRUCK WITH
CATEGORY 34A AND 33 PLATES**

**VEHICLE CARRIER WITH 31L VERTICAL AND
HORIZONTAL STRIP PLATES**

**LOG TRAILER/JINKER WITH
31L AND 161 STRIP PLATES**

**PRIME MOVER WITH 615A AND 615B STRIPS
AND 31L PLATES**

REAR MARKING PLATES

Rear Marking Plates for vehicles over 12 tonnes GVM and all trailers over 10 tonnes GTM.

Class 400 and retro-reflective are available on 1.6mm aluminium with rounded corners and mounting holes.

Vehicles or combinations 7.5 metres or more in length that have to straddle lanes or turn from an adjacent lane to turn left or right at intersections. MUST be fitted with 'Do Not Overtake' signs.

- If space permits – use Category 33 and Category 34 as first choice.
- If Category 33 is selected, use either Category 31L or Category 33L also.
- If Category 34 is selected, use Category 33 on the right, or use Category 34 on both sides.
- If no room on the vehicle for Category 33 or 34, then Category 31 or Category 33L can be used. Use in conjunction with rear marker plates.
- Strip colour bands to be used wherever space will permit to show each

STORAGE & HANDLING

Signs should arrive with either slip sheeting or other protective material between each of the signs to reduce the risk of abrasions during shipment.

Signs should not be stacked flat, but stored on the edge in a dry environment.

Stacking signs flat may compress either the glass beads, or prisms in the sheeting, resulting in a loss of necessary reflectivity and damage to ink.

CLEANING

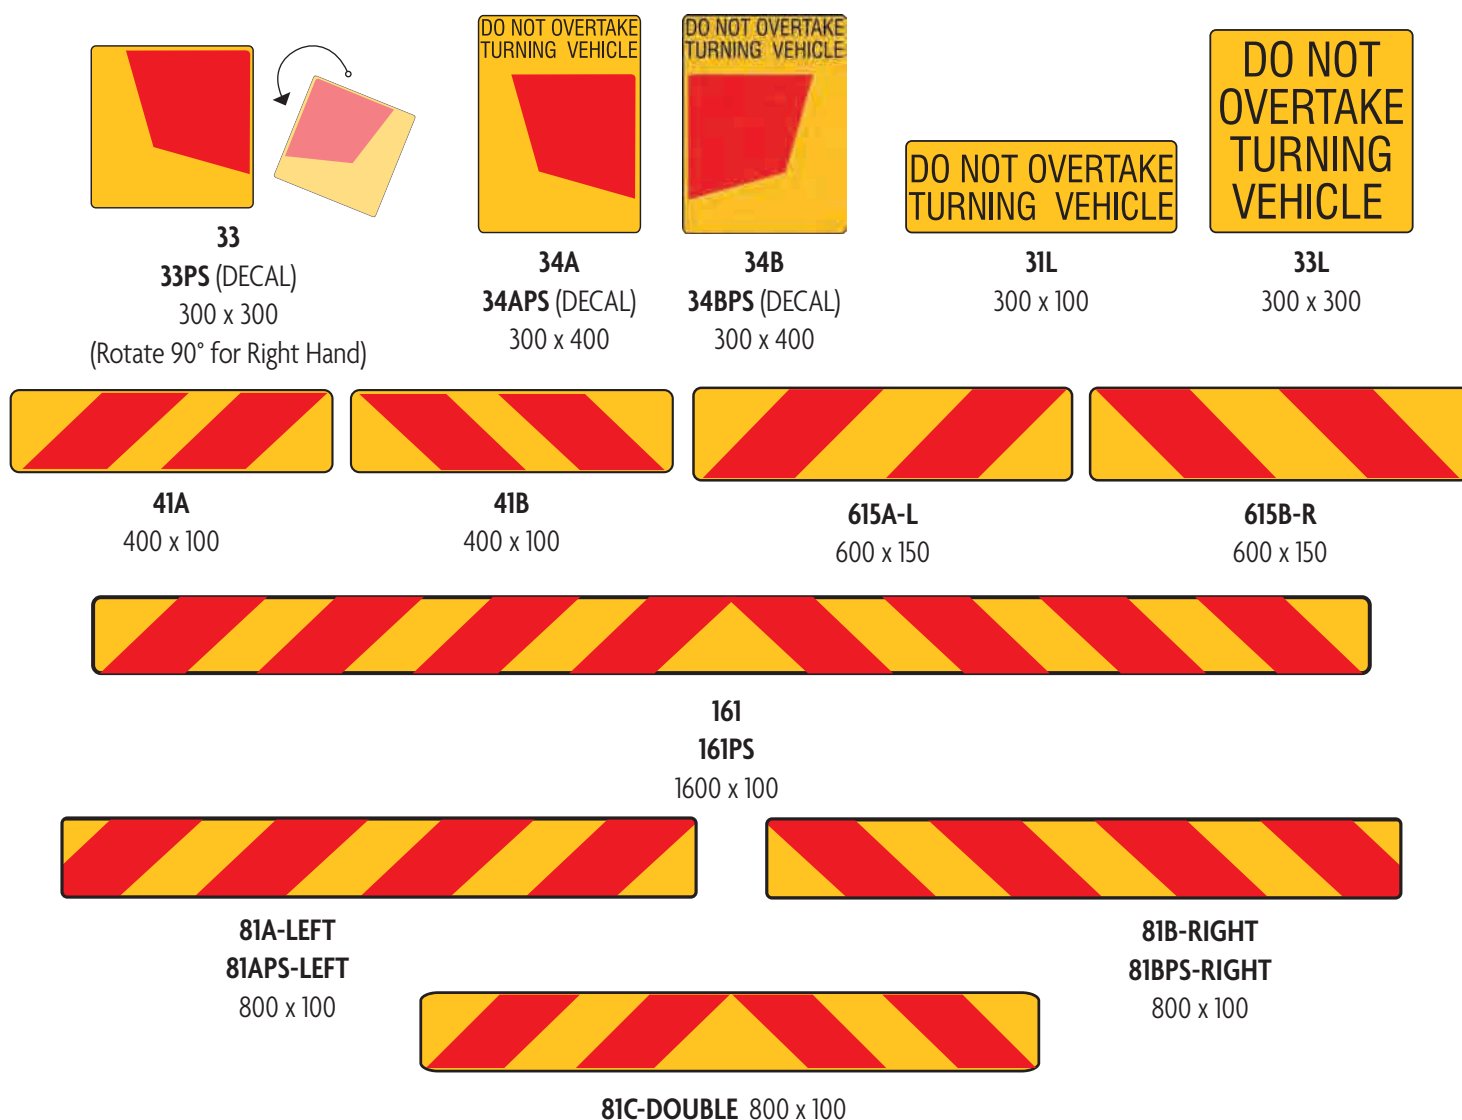

Take extra care to maintain integrity of signs. Attention to careful cleaning is required. Use warm water and mild soap or detergent together with soft cloth or sponge. Do not use solvents or abrasives.

Refrain from using high pressure jet washer as it will compromise the longevity of the signs.

ALL THE SIGNAGE SHOWN IS AVAILABLE IN:

- **STANDARD 1.6MM ALUMINIUM**
- **SELF-ADHESIVE RETRO-REFLECTIVE DECAL**

AS 4001.2017: CLASS 400 ON ALUMINIUM OR DECAL

OVERSIZE AND LONG VEHICLES

CLASSIFICATION

A full range of oversize plates are available to meet the Australian Transport Commission Regulations

OPTIONS

- Aluminium Plates
- Pressure Sensitive Decals
- Fabric Banners with Eyelets
- Double Sided Plates
- Two Piece Plates
- Hinged Plates
- Two Piece Hinged
- Multiple Hinged Plates

CONSPICUITY & FLEET TAPES

Reflective contour markings on trucks make detection easy, giving drivers time to see a vehicle, react and avoid a collision.

V-6700B - Rigid Surfaces

Available in the European and Asia-Pacific markets only, V-6700B tape is ECE Certified for contour marking, meeting the stringent requirements of the ECE 104, Class C regulation. Designed for use on trucks and trailers with rigid surfaces, V-6700B provides superior reflectivity and enhanced night-time safety. It is a high quality, durable, microprismatic retroreflective material with a pressure sensitive adhesive and a single layer construction that does not require edge sealing.

V-6790 - Flexible Surfaces

Another product available in the European and Asia-Pacific markets only, V-6790 tape is also ECE Certified for contour marking, meeting the stringent requirements of the ECE 104, Class C regulation. It provides the same superior nighttime visibility performance as the V-6700B tape, but is designed for use on trucks and trailers with flexible surfaces.

PRODUCT SPECIFICATION

PRODUCT	DURABILITY	APPLICATION	SPECIFICATIONS	APPROVAL MARK	SIZE	COLOURS
