

Sunny Signs

PRODUCT CATALOGUE

A Subsidiary of Traffic Technologies Ltd

FOR ORDERS & ENQUIRIES PHONE 08 9248 1002

ACT & VIC

Sunny signs is part of Traffic Technologies, a publicly listed company operating in every state of Australia. It's WA manufacturing plant is located in Malaga.

As part of Traffic Technologies, we are able to offer access to other parts of our group which include Traffic Signals, Street Lighting and associated products, Portable Roadside Technology, Smart City Solutions and Emergency Phones. All of these services can be utilised in a mine site or many other infrastructure environments.

As a sign manufacturing company, Sunny Signs is able to offer the full gamut of signs that may be required from Road and Traffic Signage to any Standard or Custom Safety Sign.

We have a fully equipped Graphics Department who are able to receive a file with your design and interpret your specifications to produce print ready artwork for your approval.

As a 3M preferred supplier, signs that we produce are covered by the 3M Diamond Warranty Program whose duration is governed by the class of material chosen for a specific sign. As a preferred supplier, the company is audited by 3M to ensure that all our systems and procedures are being performed as per their requirements. The 3M warranty information is contained further in this catalogue.

By utilising Sunny Signs you have the assurance of dealing with a Quality Assured company that is backed by a National Structure who uses reflective materials sourced from an internationally renowned provider of vinyl products.

WALGA is pleased to confirm that Sunny Signs is a Preferred Supplier as part of the WALGA Preferred Supplier Panel for the Provision of Signage to the Local Government Sector in Western Australia.

The Sunny Signs appointment followed a robust public process (Tender) conducted by WALGA to establish a Preferred Supply panel in this category area at the request of our Member councils to facilitate direct access to endorsed suppliers for the sector's significant spend in the area of Signage.

WALGA looks forward to a long and successful partnership with Sunny Signs as a Preferred Supplier. Should you have any queries please do not hesitate to contact us at purchasing@walga.asn.au.

Paul Davies
General Manager

3M Traffic Safety Systems

Road Safety Solutions

There's reflective sheeting for signs, then there is 3M™
Diamond Grade™ DG3

Are you getting what
you pay for?

3M™ Diamond Grade™ DG3 high performance Reflective Sheeting delivers outstanding sign visibility from all angles for all drivers, in all types of compromised conditions for minimal difference in cost.

Delivers outstanding sign visibility for aged drivers and all vehicles - cars, 4WDs, trucks.

Wide angle reflectivity for disadvantaged sign positions (overhead gantries, right-hand mounted signs, street names, sharp corners).

Meets relevant standards - the new RTA NSW Class 1X & DTMR OLD Class 1X, and AS/NZS 1906.1 Class 1W.

Ideal for dangerous sections of road and black spot zones.

Guaranteed performance and durability through our 3M Diamond Warranty Programme.

Available in a range of standard and fluorescent colours.

**FOR MORE INFORMATION,
Contact your local 3M Traffic Safety
Systems Representative or 3M on 136 136**

3M Reflective Sheeting has unique patterns.
Make sure you're able to identify your signs.

3M™ High Intensity
Prismatic™ Series 3930
Meets AS/NZS 1906.1
Class 1

3M™ Diamond Grade™ DG Series
4000 Meets AS/NZS 1906.1
Class 1W, RTA NSW Class 1X
& DTMR QLD Class 1X

ELECTRONIC & PORTABLE TECHNOLOGY

EVOLIS - STANDALONE ELECTRONIC SIGN

EVOLIS

EUROPEAN DESIGNED & MANUFACTURED

- THE EVOLIS STANDALONE DEVICE
- SAME GREAT FEATURES
- SAME SOFTWARE PLATFORM
- SAME OPTIONAL EXTRAS

The Evolis Speed Indication Device is the product of choice for an all in one radar and data collection device. Not only does it present a sleek European design, it has also been built using the best components giving it a reputation for being one of the most energy efficient and reliable units in the market. ALSO AVAILABLE IN A TRAILER VERSION, SEE PAGE 62.

The Evolis Speed Indication Device is easily configured and installed to educate motorists of their travel speeds. It helps to reduce overall excess traffic speeds, particularly in high incident areas. Utilising the optional built in data logger, road asset owners can gather and analyse traffic speed data on specific roads so that they can make informed planning decisions on road safety.

FEATURES & BENEFITS

- Anti-corrosion, anti-UV treatment plus unit sealing ensures long term resistance, strength and durability
- Injected ABS resin waterproof housing with integrated hooks
- Lockable permanent mounting bar made of injected ABS resin, mounted on poles with brackets (sold separately)
- Front face made of tough polycarbonate, fixed to the casing with mechanical clip and gasket seal
- Waterproof IP66 housing for 2 batteries, USB port, dial selector and adaptor
- Installed in minutes by one person
- Optional 1 or 2 way traffic flow statistics
- Optional pre-configured speed/text display settings prior to installation
- Accompanying EVOCOM software for settings configuration plus data analysis
- 34cm high speed digits (red/amber/green), a large amber text template and ultra-high brightness LEDs

NEW PRODUCTS

MOBILE EVOLIS EUROPEAN DESIGNED & MANUFACTURED

With more than 8000 units installed world-wide, the Evolis Speed Indication Device is the product of choice for an all in one radar and data collection device. Not only does it present a sleek European design, it has also been built using the best components giving it a reputation for being one of the most energy efficient and reliable units in the market. ALSO AVAILABLE AS A STANDALONE DEVICE, SEE PAGE 68.

The Evolis Speed Indication Device is easily configured and installed to educate motorists of their travel speeds. It helps to reduce overall excess traffic speeds, particularly in high incident areas. Utilising the optional built in data logger, road asset owners can gather and analyse traffic speed data on specific roads so that they can make informed planning decisions on road safety.

- Anti-corrosion, anti-UV treatment plus unit sealing ensures long term resistance, strength and durability
- Injected ABS resin waterproof housing with integrated hooks

MOBILE EVOLIS WITH TRAILER

Optional Extras

- Bluetooth Connection
- 3G Connection
- One way Traffic Flow Statistics
- Two way Traffic Flow Statistics

RADAR SENSOR

Doppler Radar:	24.125 Ghz
Detection range:	10-250 metres
Detection angle:	17 o
Accuracy:	+/- 1km/h (travelling at 100km/h)

DISPLAY

LED:	3 digits
Colors:	Red, Amber and Green
Size of digits:	340mm
Text display (Matrix):	640mm x 160mm (64 x 16 pixels) 1 line of 7 characters 160mm High 2 lines of 10 characters 70mm High
Visibility:	250m
Refresh:	1.2 seconds (configurable)

HOUSING

Dimensions:	H: 700mm x W: 709mm x D: 170mm
Housing:	Injected ABS resin, grey RAL 7035
Front face:	Polycarbonate
Waterproof:	IP66
Weight:	8kg (without batteries)

EVOCOM SOFTWARE

ADVANCED CONFIGURATION & STATISTIC ANALYSIS

Evocom PC software, provided free of charge, is featured with a user-friendly interface for advanced configuration: specific speed ranges, speed increments, data recording function (*), text messages, time slots etc...

(*)Data recording function (one way / two way traffic flow statistics) purchased separately.

NEW PRODUCTS

PCMS-4880RC

SUITABLE FOR APPROACHING
VEHICLE SPEEDS UP TO 50 KM/H

State of the art full-matrix trailer-mounted portable variable message signs. Features the Opti Power lens, tilt and rotate solar panels, Jamlogic fleet management software (modem required) and Stealth Technology (except the colour version). These units combine energy-efficient design and high-quality construction to provide the most reliable and cost-effective message signs on the market. Built with a compact design which makes it perfect for use on highway construction projects where space is limited as well as urban areas.

PCMS-548VT

SUITABLE FOR APPROACHING
VEHICLE SPEEDS UP TO 60 KM/H

NEW PRODUCTS

PCMS-320RC
SUITABLE FOR APPROACHING
VEHICLE SPEEDS GREATER
THAN 90 KM/H

Our high speed modem with GPS allows you to maximise your productivity, efficiency and profitability, all remotely from your office or home. The JamLogic software is FREE and you get all the updates at no extra cost.

- Monitor, maintain and manage your signs from any PC, laptop, tablet or smartphone
- View your equipment in a list and GPS map view
- Change a message on one or more signs simultaneously with a simple click
- View your messages and battery voltages
- Group your signs in folders (by customer, location, project... the choice is yours)
- Receive e-mail or text alerts (low battery, cellular failure etc)

PCMS-320TRC

VEHICLE SPEEDS GREATER
THAN 90 KM/H

NEW PRODUCTS

PPL-1000

**UP TO 14K
LUMENS**

PTL-1000

**UP TO 14K
LUMENS**

The PPL-1000 and PTL-1000 are compact, battery powered portable presence and target lights. Presence lighting allows the motoring public to visually see from a distance an upcoming night time lane closure. The system is quick and easy to set up and does not require a diesel generator to power. They feature ultra bright LED lamps with Ver-Mac's exclusive Nightbrite Technology, providing a brighter and more environmentally friendly lighting system. Equipped with high performance lithium batteries and fast-charging system, these quality units will perform night after night. The presence of lighting reduces motorist's speed, approaching and through the work zone, increasing safety for motorist's and workers alike.

- ✓ NO NOISE
- ✓ NO SMELL
- ✓ NO FUEL EMISSIONS

NEW PRODUCTS

PSLT-4000S

**UP TO 42K
LUMENS**

PSLT-6000

**UP TO 63K
LUMENS**

The PSLT-4000S and PSLT-6000 are compact and powerful portable solar light towers that are cost effective and have a great return on investment. They are as visually bright, effective and compact as conventional diesel light towers, without costing thousands of dollars every year in fuel and labour. They feature ultra bright LED lamps with Ver-Mac's exclusive Nightbrite Technology, providing a brighter and more environmentally friendly lighting system. These quality units are ideal for lighting construction work zones, parking lots, special events, emergency response plus oil and mining applications.

3M SIGN WARRANTY

DeNeeff Signs is an innovative manufacturer of Traffic Control Signage and associated equipment, ranging from the smallest pressure sensitive decal to the largest guide sign. Since the early 1950's, DeNeeff have had a close association with 3M Australia Pty Ltd and as such, are able to provide the full flow on benefits of 3M's extended sign replacement warranty for all of our durable and permanent traffic signs.

This together with our technical expertise and manufacturing know how, developed over the past 80 years, our ongoing commitment towards customer satisfaction and the manufacture of quality products has made us the largest traffic sign manufacturer in Australia with branches in VIC, NSW, QLD, ACT, WA, SA, TAS & NT.

We are proud to say we are an Australian owned company and promote Australian manufactured products.

From the date of sign manufacture and if within the warranted period of vertical outdoor exposure, the reflective sheeting deteriorates due to natural causes to the extent that the sign fails to retain the minimum retro reflectivity values as defined in the Warranty Schedule, **Avery Dennison shall meet the total cost of replacing the sign including all labour and materials.** This ICS Platinum Extended Warranty shall remain in place for 24 months from the date of issue subject to De Neefe Signs complying with ongoing Avery Dennison Quality Audits.

Warranty Conditions

This warranty shall be effective only if all of the following conditions are met:

The sign manufacturer must have been an Avery Dennison certified authorized converter at the time the sign was manufactured.

The failure must have resulted solely from a manufacturing defect or deterioration of the sheeting due to natural causes. Without limiting the generality of the foregoing, there is no warranty for the failure of the sheeting due to improper sign fabrication, improper storage, handling, installation, or maintenance, or failure of the sign substrate, or vandalism or malicious mischief. Slight color fading, cracking, chalking, edge lifting, or slight reduction in gloss or reflectivity will not materially detract from appearance and does not constitute a breach of warranty.

If Avery Dennison products with differing warranty periods are combined on a sign, the lesser warranty period will apply.

Avery Dennison has published instructional bulletins pertaining to the storage, handling, and cleaning of sheeting, approved sheeting substrates, and sheeting application procedures (collectively, the "Procedures"). The sheeting must have been processed and applied to blank sign material in accordance with the Procedures, as such may be amended from time to time. The sign dating, warranty registration, and claim procedures promulgated by Avery Dennison must be followed, and failure to follow such procedures shall void this warranty.

Replacement sheeting carries only the unexpired warranty of the sheeting it replaces.

It is a condition of this warranty that Avery Dennison reserves the right to properly clean the sign under complaint and subject it to any testing deemed necessary to determine the validity of any claim.

Warranty Limitations

The remedies provided under this warranty are exclusive. Avery Dennison shall not be liable for any direct, indirect, incidental or consequential damages or specific relief, and, except as specifically provided herein, in no event shall Avery Dennison's liability hereunder exceed the value of the Avery Dennison product giving rise to liability. **THIS WARRANTY IS GIVEN IN LIEU OF ALL OTHERS. ANY AND ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING IMPLIED WARRANTIES OF MERCHANT-ABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY DISCLAIMED.**
